

DELTA HOTELS LONDON ARMOURIES BY MARRIOTT

Featuring historic architecture, the full-service, award-winning Delta London Armouries has been completely redesigned for today's traveler.

WorldVue provides over the top television services including customized programming and streaming services to the iconic Delta London Armouries by Marriott.

WorldVue partners with Delta Hotels London Armouries by Marriott to bring timeless luxury to today's travelers. This classic property marries historical architecture and updated design with modern-day amenities and guest-room entertainment. Advanced technology solutions include high-speed, complimentary Wi-Fi and OTT programming by DISH Business and WorldVue.

THE ARMOURY was built in 1905 and was designed by the Canadian architect David Ewart. Originally comprised of mess halls, sleeping quarters and a shooting gallery, the armoury was updated in 1985 to include the iconic 20-floor hotel tower. The mixture of modern design and classic architecture reflects the town's journey into a bustling metropolitan city.

Surrounded by corporate offices and local attractions, the Delta Hotels London Armouries by Marriott is an excellent choice for both business and leisure travelers. Each contemporary uniquely designed guestroom features complimentary Wi-Fi, in addition to a LCD TV with programming by DISH Business and WorldVue. Large suites accommodate today's business and leisure travelers, offering both spacious, connecting family-friendly rooms, and luxurious, secluded suites.

The hotel tower provides spectacular views of the historic armoury, and guests can see all 20 floors from the elevator. In addition to contemporary room design, the Delta Hotel London Armouries also offers historic armouries rooms and suites located in the original section of the armoury. Club-level rooms are secluded on the top floors with an exclusive lounge, complimentary breakfast and unique views of the historic hotel.

The Delta Hotels London Armouries by Marriott is the perfect place for guests to immerse themselves in the town's culture and cuisine. The Grille Restaurant serves fresh, local, and seasonal menus in addition to the award-winning London's Best Sunday Brunch in a relaxed, atrium setting in the historic, original armory.

The Cantata Lounge is the hotel's bar and lounge, located on the upper side of the hotel, which overlooks the front desk and the dining room. The Cantata Lounge is the perfect spot for pre-dinner drinks specializing in martinis and Manhattans.

This is luxury made simple; this is the Delta London Armouries.

What sets us apart from others is our customer service. We chose WorldVue as our trusted advisor because we needed a technology partner that provides the same level of customer care our guests have come to know and expect from Delta Hotel London Armouries.
